## Golf Cart Information Sheet

Key must be removed from cart anytime it is left unattended.

Cart charger always needs to be kept out of the weather. Charger is “automatic” and will shut off automatically when cart is fully charged.

Large plug at end of charger plugs into cart and will only fit one way. The power cord end requires 110v service. Both plugs must be plugged into correct ports for charger to work.

Some of our Electric Carts are equipped with a battery light or voltage gauge indicating when the batteries are getting low. When the light comes on, the cart will need to be plugged into the charger. It is recommended the Cart is placed on charge anytime not in use or at a minimum charged every night regardless of the battery condition. This will insure you get the most out of the cart for the duration of your rental. Keep in mind, electric carts cannot and are not designed to run continuously without charging the batteries. Run times will vary and will be shortened if cart is driven in loose sand or when carrying 4 or more passengers.

At no time should there be more than 4 passengers on the cart. Allowing more than 4 passengers on the cart will result in suspension damage and repair costs will be charged against you.

Do not make turns at high speeds. Slow down to turn or make corners. It is our goal to provide customers with reliable golf carts by which we perform routine maintenance and battery discharge tests. This is to ensure you get the most use out of the cart with each charge. In the event a problem does arise we ask that you first check to ensure that all operating instructions are being followed and the charger has enough power and is connected properly. Do not for any reason attempt to perform maintenance or repairs on cart.

If you are unable to resolve the problem, contact Two Pop's Golf Cart Rentals immediately and we will send someone out as soon as possible. Should the problem result in the loss of use during the agreed upon usage time, you will be refunded for unused time, or cart substituted appropriately. Failure to notify us of a problem will result in no refund for that period we were not notified of the problem. In the event we are requested to make a service call and it is determined that the problem is the result of improper operation of the cart or failure to properly connect the charging system a \$25.00 fee will be charged against you.

Golf Carts operated after sunset must have lights turned on. Please respect your neighbors and the quiet hours. Golf Carts must be operated properly. Horseplay, racing or other misuse of cart will not be tolerated. Lessee must follow all state and county laws regarding golf carts, including but not limited to pulling off the side of the road for cars to pass.

Carts Cannot be driven in or thru restricted areas. No off road riding.

Golf Carts must always remain in Old Homosassa not to exceed past posted areas.

Areas of use are from the intersection of Yulee Dr. And Fishbowl Dr. (Water Tower) and to the end of Mason Creek Road. Carts are not allowed any other locations.
